NEW VOLK RACING ORIGINAL TE37 SAGA S-plus 30th ANNIVERSARY

What's engraved is not 30 years, but the will to evolve. TE37 30th Anniversary Model

MADE IN JAPAN

BL MAG Blue

Thirty years since its birth.The TE37 has consistently pursued the ideal of a sports wheel—lightweight yet highly rigid—earning an unshakable position across countless street and circuit scenes.The "37" in its name comes from the initials of Touring Evolution, and from its approximately 3.7kg weight—an astonishing figure for a 15-inch wheel at the time.True to its name, the TE37 has, from the very beginning, continued its journey as a lightweight forged wheel that never stops evolving.As time moved forward and high-powered, heavier 4WD and turbo sports cars became the norm, the TE37 was demanded to achieve even greater strength and rigidity. This led to the fully redesigned TE37 SAGA, and further refinement of its philosophy in the TE37 SAGA S-plus. The 30th Anniversary Model is based on this TE37 SAGA S-plus, carrying forward the unchanging core philosophy of the TE37 while embodying an homage to the original, first-generation model.By layering iconic spoke decals and color schemes from the past onto a modern TE37 that meets the latest strength standards and safety margins, this model transcends mere nostalgia, emerging as an anniversary model that exists firmly in the present.This wheel was not created simply to celebrate 30 years. It stands as a statement that VOLK RACING will continue to place performance above all else in the era to come.That is the TE37 30th Anniversary Model.

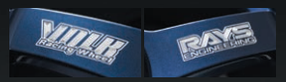

30th Common Limited Sticker

A carbon-style box sticker created to commemorate the 30th anniversary.Featuring the "30th Anniversary" logo in a special specification,this sticker is included with all items in the 30th Anniversary series.

Dedicated Sticker (Sticker Version Only)

Exclusive stickers inspired by the design of the original TE37.Available in blue to evoke the look of the original model. A distinctive touch that brings TE37's roots to your vehicle's stance.

Spoke Machining (Machining Version Only)

A special machined logo that reflects 30 years of RAYS' challenges and evolution. The original TE37 logo is machined onto the spoke. Through precise machining, it expresses RAYS' uncompromising craftsmanship and its philosophy of being "the lightest and strongest"

TE37 30th Machined Logo

"30th ANNIVERSARY" is machined onto the flange. A subtle detail that marks this special milestone at the foot of the vehicle.
The valve positioned above the machining adopts the same blue color as the original TE37.
